

SCIENTIFIC PROGRAM (Summary)

First day - Friday 18.09.2020

11:30 - 14:00 Registration

First session 14:00 - 15:30 State of the Art - Chamber quantification & Function / The complete standard echo study. **Chairs: Kušljugić, Nešković, Edvardsen**

15:30 - 16:00 Opening ceremony

Second session 16:00 - 17:30 Current Modalities of Cardiovascular Imaging. **Chairs: Sokolović, Flaschkampf, Šeparović**

Coffee break 17:30 - 18:00

Third session 18:00 - 19:30 Echocardiography: Valve Disease. **Chair: Aytekin, Naser, Stanković**

20:00 - 22:30 Dinner

Second day - Saturday 19.09.2020

First session 09:30 - 11:00 The essential guide to 3D echocardiography. **Chairs: Djordjević - Dikić, Mott, Gücük**

Coffee break 11:00 - 11:30

Second session 11:30 - 13:00 Multimodality imaging in patients with coronary artery disease New recommendations from EACVI – ASE. **Chairs: Dilić, Cosyns, Sade**

13:00 - 14:00 Lunch

Third session 14:00 - 15:50 Cardiovascular imaging in Heart Failure. **Chairs: Erol, Ajmone, Terzić**

16:00 - 17:30 Satellite Symposium

Coffee break 17:30 - 18:00

Fourth session 18:00 - 19:30 Expert Advice - Mitral Valve Prolapse. **Chairs: Mladenović, Beleslin, Donal.**

20:00 - 22:30 Gala Dinner

Third day - Sunday 20.09.2020

First session 09:30 - 11:00 FoCUS Cardiac ultrasound. **Chairs: Kulić, Baraković, Rešković - Lukšić**

Coffee break 11:00 - 11:30

Second session 11:30 - 13:00 Echocardiography Masses and Sources of Embolism. **Chairs: Trifunović, Smajić, Lazarević**

13:00 - 13:30 Warp-up & Take-Home Messages

Scientific Program by sessions

First day - Friday 18.09.2020

11:30 - 14:00 Registration

First session - Chairs: Kušljugić, Nešković, Edvardsen

14:00 - 15:30 State of the Art - Chamber quantification and Function / The complete standard echo study

- 14:00 - 14:20 Nabil Naser: LV size and systolic function.
- 14:20 - 14:40 L. Elif Sade: LA Function.
- 14:40 - 15:00 Zorica Mladenović: RV and RA size and function.
- 15:00 - 15:20 Jadranka Šeparović: Common mistakes and pitfalls in 2D echocardiography.
- 15:20 - 15:30 Discussion

15:30 - 16:00 Opening ceremony (Naser, Edvardsen, Kušljugić)

Second session - Chairs: Sokolović, Flaschkampf, Šeparović

16:00 - 17:30 Current Modalities of Cardiovascular Imaging

- 16:00 - 16:20 Viktor Perišić: Cardiovascular MRI in the guidelines: current and future indications.
- 16:20 - 16:40 Radosav Vidaković: Cardiac computed tomography as first line test for coronary disease.
- 16:40 - 17:00 Erwan Donal: EACVI Recommendation about cardiac Imaging in DCM.
- 17:00 - 17:20 Thor Edvardsen: Up to date assessment of LV function - EF not enough.
- 17:20 - 17:30 Discussion

Coffee break 17:40 - 18:00

Third session - Chair: Aytakin, Naser, Stanković

18:00 – 19:30 Echocardiography: Valve Disease

- 18:00 - 18:20 Erwan Donal: Imaging in the tricuspid valve
- 18:20 - 18:40 Nina Ajmone: 3D echo for the assessment of valvular heart disease
- 18:40 - 19:00 Thor Edvardsen: Time to redefine when to replace an aortic stenosis
- 19:00 - 19:20 Bernard Cosyns: Role of echocardiography in the assessment of prosthetic valve dysfunction
- 19:20 - 19:30 Discussion

20:00 - 22:30 Gala Dinner + entertainment

Second day - Saturday 19.09.2020

First session - Chairs: Djordjević - Dikić, Mott, Gücük

09:30 - 11:00 The essential guide to 3D echocardiography

- 09:30 - 09:50 Ivan Stanković: Cardiac anatomy insights for the 3D echocardiographer.
- 09:50 - 10:10 Nina Ajmone: Insights from the EACVI survey on standard TTE reporting: current clinical applications of 3D echocardiography and strain-imaging.
- 10:10 - 10:30 Vlatka Rešković - Lukšić; Practical tips for an easy 3D cropping & orientation
- 10:30 - 10:50 Zorica Mladenović: Pitfalls and artefacts of 3D echo: how to deal with them?
- 10:50 - 11:00 Discussion

Coffee break 11:00 - 11:30

Second session - Chairs: Dilić, Cosyns, Sade

11:30 - 13:00 Multimodality imaging in patients with coronary artery disease New recommendations from EACVI – ASE

- 11:30 - 11:45 Ibrahim Terzić: Ischaemia, anatomy and imaging.
- 11:45 - 12:00 Nikola Bulj: Recommended approach for the patients with acute chest pain.
- 12:00 - 12:15 Branko Beleslin: Invasive functional proof of microvascular dysfunction.
- 12:15 - 12:30 Jadranka Šeparović: Global and Regional LV dysfunction related to acute and chronic ischemia.
- 12:30 - 12:50 Frank Fläschkamp: What news do these recommendations bring?
- 12:50 - 13:00 Discussion

13:00 - 14:00 Lunch

Third session - Chairs: Erol, Ajmone, Terzić

14:00 - 15:50 Cardiovascular imaging in Heart Failure

- 14:00 - 14:20 Erwan Donal: Value of Imaging in HFpEF or HF with decrease EF
- 14:20 - 14:40 Bernard Cosyns: Pericardial effusion and congestive heart failure: the egg and the chicken.
- 14:40 - 15:00 L.Elif Sade: Impact of regional strain assessment in cardiomyopathies
- 15:00 - 15:20 Fahir Baraković: Arrhythmogenic right ventricular dysplasia (ARVD)
- 15:20 - 15:40 Ana Djordjević - Dikić Emerging link between coronary microvascular disease and heart failure: Role of noninvasive imaging and risk stratification.
- 15:40 - 15:50 Discussion

16:00 - 17:30 Satellite Symposium

Coffee break 17:30 - 18:00

Fourth session - Chairs: Mladenović, Beleslin, Donal.

18:00 - 19:30 Expert Advice - Mitral Valve Prolapse

- 18:00 - 18:20 Jasmin Čaluk: Mitral valve prolapse epidemiology, anatomy & pathology.
- 18:20 - 18:40 Frank Flaschkamp: Echocardiographic assessment of mitral valve prolapse doing it right.
- 18:40 - 19:00 Šekib Sokolović: Mitral valve prolapse and arrhythmias: not quite as harmless as you may think!
- 19:00 - 19:20 Danijela Trifunović: Mitral valve prolapse: Recommendations for monitoring, treatment and follow-up.
- 19:20 - 19:30 Discussion

20:00 - 22:30 Dinner for all participants

Third day - Sunday 20.09.2020

First session - Chairs: Kulić, Baraković, Rešković - Lukšić

09:30 - 11:00 FoCUS Cardiac ultrasound.

- 09:30 - 09:50 Aleksandar Nešković: FoCUS introduction and principles.
- 09:50 - 10:10 Aleksandar Lazarević: What is FoCUS: scope and limitations.
- 10:10 - 10:30 Ivan Stanković: Basic lung ultrasound exam.
- 10:30 - 10:50 Elnur Smajić: Handheld ultrasound devices – HUD.
- 10:50 - 11:00 Discussion

Coffee break 11:00 - 11:30

Second session - Chairs: Trifunović, Smajić, Lazarević

11:30 - 13:00 Echocardiography Masses and Sources of Embolism.

- 11:30 - 11:50 Aleksandar Nešković Intracardiac thrombi.
- 11:50 - 12:10 Nikola Bulj Valvular and device-related sources of embolism.
- 12:10 - 12:30 Danijela Trifunović Cardiac tumours.
- 12:30 - 12:50 Mirza Dilić Vascular sources of embolism.
- 12:50 - 13:00 Discussion

13:00 - 13:20 Warp-up & Take-Home Messages
